

# BKT5464Y

# VINTAGE

== Auto Garage ==

Fits most 1954-62 Car and 1954-64 Truck Y-blocks except as indicated below

Fits: 239,256,272,292,312 Ford Y block V8 engines. Will not fit Y blocks installed in T-Birds also may not fit some truck applications with longer water pumps.

This Ford Y-Block alternator bracket mounts in the same location that the old generator, but allows you to run the common GM Delco Style alternator. You should be able to use the same belt length as the original.

Install the alternator using the hardware provided. There is no need to overtighten the alternator bolt; you want the alternator to have some movement.

### Bracket Includes:

- |                         |   |
|-------------------------|---|
| BOLT 5/16-18 x 1        | 1 |
