

Pertronix Module Look-up By Distributor Part Number

Locate your distributor part number, will either be on the outside or on the breaker plate inside distributor and find your distributor number and Pertronix module part number. [Click here for lookup](#)

If not able to locate the part number, remove the cap, rotor and the condenser. Take a picture of the points and breaker plate. Open up Vintage Auto Garage website, find the red bubble bottom right side of website, open this up, find the paperclip, fill out your information with a message and send. One of our representatives will respond within 2-3 business days.
